Sage Accpac Online provides the benefits of an integrated solution that combines the Sage Accpac ERP and SageCRM solutions .

Transform Your Business Today!

Sage Accpac Online is the online version of the award-winning Sage Accpac end-to-end business management applications. With Sage Accpac Online you receive all the power and functionality of our suite of on-site accounting, operations, sales, marketing, and customer service solutions with the added flexibility, convenience, and affordability of a hosted application. Sage Accpac Online is ideal for organizations with distributed or remote workforces, multiple locations, or multi-national business transactions.

Sage Accpac Online includes core financial and operational modules—*General Ledger, Accounts Receivable, Accounts Payable, Inventory Control, Order Entry, Purchase Order, and Project & Job Costing*—giving you the tools to confidently manage your business’s financial and operational challenges and comply with regulations such as Sarbanes Oxley, GAAP, and IFRS.

The solution also includes SageCRM, an easy-to-use, on-demand CRM solution that provides enterprise-wide access to vital customer information—anytime, anywhere. With SageCRM, you can manage your business with an integrated approach to field sales, inside sales, customer care, and marketing.

Sage Accpac Online is integrated with many third-party applications that address specific customer requirements. For a few examples, MISys’ industrial-strength manufacturing system helps manufacturers run their businesses more efficiently. And Wellspring Software’s PrintBoss enables secure and efficient printing of checks and accounting forms.

Subscribing to Sage Accpac Online is a cost-effective way to get anytime, anywhere access to the key business applications that you rely on to run your business. Get the peace of mind and cost-savings of having your mission-critical business functions managed by Sage Software.

“Sage Accpac Online is ideally suited for companies that are looking for ways to reduce costs while continuing to provide excellent customer service.”

Jim Grimshaw, director of hotel systems
Carlson Hospitality Worldwide

SAGE ACCPAC

Sage Accpac Online

Anytime, Anywhere Access

Hosting your back-office software at Sage Accpac Online provides your business with convenient access to your application data anytime, anywhere. Sage Accpac Online connects multiple remote locations to the same system, allowing critical information to be easily shared. Employees in multiple locations—in the field, in the warehouse, or at head office—are able to access data simultaneously. This free flow of information across the enterprise enables you to make more informed decisions and reach new levels of customer profitability.

Rapidly Deployed

With Sage Accpac Online, you can grow your company without growing your IT support burden. Simply add more applications as you require more functionality, and add more users without worrying about installation, configuration, and support of additional hardware and software. Sage Accpac Online makes it easy for you to use powerful business management applications today, and add advanced capabilities tomorrow.

Affordable

With only a PC and an Internet connection, you can start using Sage Accpac Online for your business management software needs and avoid most of the equipment and personnel costs that might otherwise be required. There are no servers to purchase and manage, databases to administer, or nightly backups to perform. One convenient monthly payment covers infrastructure software, maintenance fees, daily backups, and software updates. Customers can immediately start realizing return on their investment.

Platform Flexibility

Sage Accpac Online provides the capability to seamlessly move to an on-site system if and when your business requirements change—without extensive customization or high cost. This flexibility gives you data portability. You choose the deployment method that best meets your needs. And your investment is protected by our convenient “rent to own” pricing model which gives you credit for your Sage Accpac Online subscription that can be applied to the cost of on-site licenses.

Customizable

Sage Accpac Online adapts to your requirements whether you want to change screens to tailor them to your users’ experiences or add Optional Fields to meet the unique needs of your business.

Support for Global Business

Sage Accpac Online is available in multiple languages, has multicurrency capabilities, complies with local tax regulations, and is supported by partners in over 100 countries.

Extensive Training and Support

With a global network of well-trained and experienced business partners, Sage Software can provide you with on-site consulting, training, and implementation assistance to help you make the most of your hosted solutions. You can visit the Sage Accpac Online Community, a forum of users and Sage Accpac support specialists, to learn how to get the most from your system. You can consult the Sage Accpac Knowledgebase, a comprehensive, searchable technical resource library, for 24/7 access to valuable tip, tricks, and troubleshooting advice. Finally, you can advance your skills and proficiency by taking one of the dozens of online or live group courses offered through Sage Software University.

Responsive Customer Service

Sage Accpac Online is managed by a team of certified experts in the field of application hosting. With extensive Sage Accpac support experience, these well-trained professionals provide customer support, regular maintenance and upgrades, and full backup and recovery capabilities—without disrupting your business.

Priority Software Support

The optional Priority Software Support subscription provides you with unlimited support, unlimited access to Anytime Learning online courses, discounts on live training, and regular payroll updates.

Robust Security

Sage Accpac Online deploys powerful security and systems management technology to provide your business with infrastructure management and systems monitoring of your business-critical applications.

Guaranteed Level of Performance

Sage Accpac Online provides reliable network and application availability and performance. We offer you Service Level Agreements that specify the levels of performance, consistency, and availability that you can depend on.
