Make a positive difference for your business
and your employees

sage

Sage Abra HRMS—a critical key to business and ROEI success.

An industry-leading, customizable HRMS solution, Sage Abra HRMS helps companies optimize their HR business processes as well as maximize their Return On Employee Investment (ROEI)[™]. Developed by HR professionals for HR professionals, Sage Abra delivers a tightly integrated set of comprehensive features and functionality that increase efficiency and improve productivity at every level in the organization.

With Sage Abra, you can successfully meet and respond to the HR management challenges you face every day in the areas of payroll, benefits, employee self-service, attendance, recruiting, training, workforce analytics, and more. By automating and streamlining your day-to-day HR business processes using Sage Abra, you and your staff are freed up to spend more time and energy on the business asset that is most vital to your company—your employees.

The single point of truth

The Sage Abra centralized database contains all the present and historic information about active and nonactive employees of the organization. Sage Abra is your single source for flawless payroll processing, employee administration, registration, analysis, employee life-cycle management, and all other crucial employee-related information. The benefit? High accuracy and reliability of your data translates into high efficiency for your organization.

Unlike other systems, Sage Abra is the only solution that combines low cost, ease of use, and the ability to dynamically share information with executives, managers, and others both inside and outside your organization, so leaders receive accurate information securely, when and where they want it. From on-demand information sharing to process automation and real-time business alerts, Sage Abra is designed to support executive analysis and decision-making. Sage Abra helps ensure that the HR mission-critical needs of your organization are met with the employees and programs you require today—and even as those needs change and grow well into the future.

Sage Abra HRMS

Sage Abra helps you elevate the level of service your HR department provides. This easy-to-use software lets you deliver crucial process analytics and decision support to management, increase employee motivation and retention, and improve organizational efficiency by automating employee related procedures. Using Sage Abra you can:

- Reduce time-consuming and error-prone clerical work by centralizing, tracking, and reporting employee data that may be scattered across multiple systems.
- Ensure government compliance to avoid company risk in meeting federal and state rules, regulations, and reporting requirements.
- Manage your employee information more effectively with a set of powerful tools.
- Closely monitor employee records and personnel actions, HR compliance, benefits administration, absence management, reporting (standard and custom), and data import/export actions.

Sage Abra Extended Solutions (a few of many)

Sage Employee Self-Service (Sage ESS)

Enable your employees to request time off, review pay history, update contact information, request training, and more—with just a few mouse clicks. Instead of calling the HR department with routine inquiries, employees and managers can access and review information regarding time off and current benefits to current job details and training history—anytime, anyplace over the Internet or company intranet. A new part of Sage ESS is an innovative methodology called Sage Employee Analytics, which provides executives, managers, and supervisors with a live and secure view into information relevant to managing their business.

Sage Benefits Enrollment

Save countless hours and piles of paperwork by moving benefits to open enrollment online. Sage Benefits Enrollment takes the powerful benefits management solution of Sage Abra HR to the next level by empowering employees to make their own benefits elections through the Internet or intranet. Easy step-by-step wizards guide administrators through the benefit plan setup process and walk employees through open enrollment. Sage Benefits Enrollment even includes year-round life events management that allows employees to update information such as marital status and dependents.

Sage Abra Benefits Messenger

Cut the costs and complexity of benefits administration by securely automating the communication of employee benefits enrollment data to health insurance carriers with Sage Abra Benefits Messenger. This powerful solution will eliminate the need to submit paper enrollment forms or create and maintain customized electronic file formats. Sage Abra Benefits Messenger also eliminates the costly errors associated with duplicate data entry and “missed enrollments” both during annual open enrollment periods and for employee changes throughout the year.

Sage Abra Train

Ensure your employees receive the training they need on time, every time with Sage Abra Train. With the features you need to effectively establish and administer internal training programs and keep track of employee certifications, Abra Train includes management of training logistics, such as maintenance of class rosters and training locations, as well as the setup and administration of entire training programs that employees are required to complete. Abra Train helps you keep on top of employee certifications and continuing education credits by tracking receipt and renewal dates, as well as managing all necessary requirements and prerequisites.

Sage Abra OrgPlus

Help yourself and your employees better understand your company's strategy and structure, as well as everyone's role in achieving organizational objectives with Sage Abra OrgPlus. Capabilities include chart creation, customization, publishing, printing, sharing, schedule updates, and integrated data management.

HR Actions® for Sage Abra

Streamline the collection and approval of employee data using the web. HR Actions® for Sage Abra, by Delphia Consulting, a Sage Endorsed Solution, lets you easily create paperless forms using any fields from Sage Abra HR. Process any action from request to hire to termination and everything in between, including status changes and performance appraisals. Save time, money, and paperwork with an online manager and employee self-service.

Sage KnowledgeSync for Sage Abra

Closely track all your business data, both within Sage Abra and beyond, with Sage KnowledgeSync for Sage Abra powered by Vineyardsoft, a Sage Endorsed Solution. Providing every organization with much-needed exception management, Sage KnowledgeSync identifies and responds to conditions that fall outside of an organization's standard operating procedures such as a contract that is about to expire, an employee returning from a leave of absence, or a new hire, and helps organizations avoid saying, “If only we had known.”

Cyber Recruiter® for Sage Abra

Effectively manage and communicate during the entire recruiting process with Cyber Recruiter® for Sage Abra, by Visibility Software, a Sage Endorsed Solution to help fill open positions more quickly and efficiently. Recruiters, hiring managers, and their staff can focus more on core recruiting activities while eliminating administrative tasks. Cyber Recruiter® is an in-house, 100 percent web-accessible tool that is highly configurable, paperless, and process oriented—the perfect recruiting software solution for your company.

Payroll Options

In-House Payroll

Sage Payroll

If you want complete control over your payroll process and sensitive payroll data, Sage Payroll enables you to produce accurate, timely payroll in-house and gives you complete control over your payroll process and sensitive payroll data. Simplify your organization's payroll processing with unlimited trial payrolls, on-demand, retroactive check processing, and unlimited direct deposits. We'll keep you in compliance with ever-changing tax laws through quarterly updates, including tax tables. Sage Payroll can produce U.S. or Canadian payroll or support a combination of both if your organization operates in both countries.

The advantages of in-house payroll processing are the tight integration with Sage Abra, the comprehensive reporting, the last-minute changes you can make if needed, and the comforting assurance that you are in total control.

Outsourced Payroll

CompuPay

CompuPay, a Sage alliance partner and the fourth-largest outsourced payroll provider in the U.S., offers outsourced payroll and includes such features as fax, PC and Internet payroll, tax filing, web reporting, direct deposit, restaurant reporting, time clock systems, employee benefit programs, and much more.

Tax Filing

Safeguard your company against tax filing errors and meet all state and federal reporting requirements right from your Sage Payroll software.

Payroll Cards

Sage Payroll PayCard

Save money on your payroll processing costs with the Sage Payroll PayCard, an easy-to-use alternative to paper paychecks. This payroll debit card enables all employees to be enrolled in direct deposit, regardless of an existing banking relationship. It easily integrates with both Sage Payroll and CompuPay and features a user-friendly online enrollment platform.

Maximize Your Return on Employee Investment

Do you treat your employees like investments? A company is only as good as its workforce. We are used to talking about a company as if the organization itself is a person, but an organization does not generate ideas, does not give service, and by itself is neither efficient nor productive. People make all of those things happen.

At Sage, we believe that employees are the most important component in the quest to improve business results. It makes sense to treat employee-related expenses as an investment in the workforce. Like any other investment, this critical company investment must yield a healthy return. We call that the Return On Employee Investment™ or ROEI™

HR-related technology such as Human Resource Management Systems (HRMS) and Talent Management solutions were traditionally thought of as cost reduction tools, saving time and automating routine administration to raise productivity within the HR department itself. An HRMS certainly does deliver that result. But when viewed as part of an investment in a competitive workforce, it can do much more.

Through employee self-service, training, development, compensation, and benefits management, HRMS and Talent Management can provide the tools to help keep employees engaged and satisfied. These systems also deliver the analytics to help managers and executives examine trends, support business decisions, and plan for future organizational changes.

Investing in an HRMS solution, integrated with performance management, learning and training, tools for decision support, self-service portals, and more, is an investment in the most important asset of the organization: its employees. And the return on the investment in employees can turn a struggling company into a winner.
